

ET3: CONNECT Modules: Embedded Interventions and Transition 5 Training Hours

DIVERSE ABILITIES

Learner Objectives:

- Explain what is meant by embedded interventions to promote participation in inclusive settings
- Use a decision-making process to help a child participate more fully in an inclusive setting through embedded interventions
- Explain what is meant by intentional activities to support planning before, during and after the transition.
- Use a decision-making process to help a child and family be prepared for and adjust to a new environment.

This training is one of the Essential Trainings to meet our goal of improving child care through professional development. These trainings introduce the basics of child development, health & safety, relationships with families & communities, and meeting the needs of children with diverse abilities. Think of this training and all Essential Trainings as introductions to a broad subject. You can explore other IdahoSTARS trainings to deepen your knowledge in any area. Scholarships are available through IdahoSTARS to support your ongoing education. You can receive incentives through the IdahoSTARS Professional Development System for completing each series of Essential Trainings, and eventually the Essential Trainings will be embedded in Idaho's Quality Rating and Improvement System.

Idaho Early Learning eGuidelines

Guiding Principal: Children receive learning opportunities that support their unique needs in inclusive environments

- All children, who are both typically and atypically developing are supported with opportunities to grow and learn in inclusive settings in child care, school, and community activities.
