

## Child Development Overview

### Learning Objectives

- Identify stages and domains, and milestones of child growth and development for ages birth to 12 years.
- Identify patterns of development which warrant further examination and adaptations to accommodate individual children in child care.
- Describe attributes of quality child care and learning environments for children birth to 12 years of age.

### Idaho Early Learning eGuidelines:

The importance of appropriate expectations for supporting children's development through supportive, enriching environments and interactions in early childhood settings is highlighted in the [Guiding Principles](#) and Essential Practices of the [Idaho Early Learning eGuidelines](#).

### Instructions

*PART 1: Watch the video through your provider account and complete the quiz.*

There is one 45-minute video to view with this lesson. The video can be accessed online through your provider training account. All documents for this training are available for download on the IdahoSTARS Approved Trainings page.

- Watch the video *Child Development Overview*.
- Complete the Child Development Overview quiz

*PART 2: Send completed quiz:*

**Mail to:** Attn: IdahoSTARS Training Office  
Center on Disabilities and Human Development  
University of Idaho  
1187 Alturas Drive  
Moscow, ID 83843-8331

**Email to:** idahostars@uidaho.edu

- Once your training request is reviewed, please complete the Evaluation through your provider account. This last step will finalize your training hours.

*Note: Quizzes are processed in the IdahoSTARS Training Office and must receive a minimum score of 70% to receive training hours. If a quiz does not receive the minimum of 70%, you will be contacted by an IdahoSTARS staff member to discuss the questions and content so that it can be approved.*
