¿QUÉ HACE A SU FAMILIA FUERTE?

LA REALIDAD ES...

Hay tiempos duros, mala suerte, dificultades, como usted le llame - su familia lo enfrentará tarde o temprano.

LA BUENA NOTICIA ES:

Los riesgos que usted y su familia enfrentan no definen a su familia - los factores de protección si definen a su familia. Los estudios muestran que cuando los 5 factores de protección están bien establecidos, la fortaleza de la familia y el desarrollo positivo de los niños es aparente.

La resiliencia de los padres
Sea flexible y desarrolle su fuerza interior

Las conexiones sociales
Haga amistades

El conocimiento de la crianza de los hijos
y el desarrollo de los niños
Aprenda como ser el experto de sus hijos

El apoyo concreto en tiempos de necesidad
Pregunte por ayuda

La competencia social y emocional de los niños
Dele a sus hijos palabras para que expresen lo que sienten
