Language

97%

of Early Childhood Educators in Region 5 primarily speak English.

28%

of educators are bi-lingual, speaking a total of 10 different languages.

Workforce Wages

Wages for Early Childhood Educators in Idaho are some of the lowest in any occupation across the state.²

Early educators' poverty-level wages are compounded by a lack of access to basic health and well-being supports like health insurance and paid sick leave. The pandemic brought into focus the severe consequences of these long-standing realities, as many educators have been forced to choose between a paycheck or their own health and safety and that of their families. About the Data

Data included in this report, unless otherwise noted is from the IdahoSTARS RISE Database, a centralized information system for early childhood education professionals in Idaho and reflects data from 2021. All professionals working in programs licensed by the State of Idaho and/or programs accepting the Idaho Child Care Program (ICCP) subsidies are required to utilize the database for professional development tracking.
